EXPERIENCE

Full Stack Development Intern
Scholarly Science

📅 June 2020 – June 2020

- Working on Python development (Full Stack)and PostgreSQL.
- Building API for existing Django Apps.
- Using AWS Services.

Full Stack Development Intern
Crimson Insights

📅 November 2019 – April 2020

- Working on Python development (Full Stack)and MongoDB.
- Building modules for existing Django Apps.
- Building web app(Java) of websites on server.

Contract Developer
Pioneer

📅 July 2019 – September 2019

- Worked on Python development (Full Stack)and MySQL.
- Built modules for existing Django Apps.
- Built English Learning Website.

Software Development Intern
iEduac

📅 April 2019 – June 2019

- Worked on Python development (Full Stack)and MySQL.
- Built modules for existing Django Apps.
- Developing UI to interact with reporting engines Develop wireframes and UI specifications for interactive as well as static reporting and analysis features.

Campus Ambassador Program Intern
Sant Longowal Institute Of Engineering And Technology

📅 March 2019 – April 2019

- Engage students on campus to grow awareness through sampling events, access to great prizes, and exclusive offers.

RELEVANT COURSES

- Artifical Intelligence.
- Data Structures & Algorithms.
- Applied Software Engineering.
- Service Oriented Application Development.
- Database Management System.
- Advanced Programming in C++.
- Operating Systems.
- Computer Networks.
- Information Retrieval.

EDUCATION

Indian Institute of Information Technology, Sri City
Bachelor of Technology, CSE

📅 Aug 2017 – May 2021

TECHNICAL SKILLS

Programming
C, C++, Python

Software
Django, Git, MATLAB

Databases
MongoDB, MySQL, PostgreSQL

Web-Developement
Bash, CSS, HTML, JavaScript, Linux, PHP, React.js, Node.js

Others
Algorithms, DS, Information Retrieval, AWS

SOFT SKILLS

Leadership, Ability to Work Under Pressure, Decision Making, Time Management, Adaptability, Teamwork, Creativity

PROJECTS

E-Mandi
- This project is an integrated marketplace catering to farmers with facilities like Real-time Trading, Futures Contract, Biding, Price Charts, etc.
- Provides API services to Corporates like Price trend data, Orders Generation, Recommend best Sellers from a region.

Extraction of Text from Image and Convert Text to Speech
- We used OCR that converting a scanned image to text. When a page is scanned, it is typically stored as a bit-mapped file in TIF format. When the image is displayed on the screen, we can read it. But to the computer, it is just a series of black and white dots.
- We convert this text into speech by using API Google Text to Speech.

CERTIFICATION

Hackerank! Programming using python
